ITEMS FOR BRIEF MENTION

Item For Brief Mention Report No. 6

Items for Brief Mention - Minutes for Adoption by Council - Special Purpose and Joint Committees

1. Reports:

(i) Sewer Fix: Response from the NSW Minister for Water Utilities

Council has received a response from the Hon. Nathan Rees MP, Minister for Water Utilities addressing Council's concerns regarding the Sydney Water Wet Weather Overflow Abatement Programs (i.e. 'Sewerfix') in the Manly area. Refer Attachment 1.

The correspondence outlines the Council and community liaison subsequently undertaken in response to the concerns, in addition to the Leakage and Dry Weather Overflow Programs now underway. These works, in conjunction with Council, seek to identify and prevent dry weather overflows from both private sewers and Sydney Water's sewers. It is noted that these programs will also assist to improve wet weather overflow performance and provide further data for planning.

The progress on these programs will be provided at all future forums as well as at Council's Sydney Water Partnership. An update concerning work in the Manly Lagoon catchment will also be provided by Council staff at the Manly Lagoon Catchment Coordinating Committee.

It is recommended that this information be received and noted.

(ii) Sydney Water response letter re Council's disappointment at delays pertaining to the Grant Funded North Head STP Effluent Re-use for Irrigation Project

Council wrote to Sydney Water's Managing Director, Ms Kerry Schott, on 15th April 2008. This correspondence noted that in August 2006, Premier Morris lemma made a high profile public announcement in Sydney's papers that Sydney Water will be supplying recycled

effluent to Manly from North Head Sewage Treatment Plant (STP), made possible through \$1.6 million funding from the Department of Environment and Climate Change (DECC) for pipeline connection. This correspondence also noted delays and lack of progress which have occurred to date, and the DECC's recent communication that the project must be completed by the end of 2009, with funding due to expire at this date.

Ms Schott's reply letter, dated 21st May 2008, (Attachment 2) noted that Sydney Water shared Council's disappointment in progress to date, and that the 3km delivery pipeline in the Northside Storage Tunnel required further hydraulic testing and visual assessment, which have been delayed by frequent wet weather, related safety issues, and operational priorities. Ms Schott noted that tunnel inspection is now planned in May/June 2008 to confirm pipeline reliability with further information to be forthcoming following the inspections.

It is recommended that this information be received and noted.

2. Minutes of Meetings without recommendations of a substantial nature:

- i) Playground Management Committee – 10 April 2008
- ii) Manly Traffic Committee – 28 April 2008
- iii) Heritage Committee – 7 May 2008
- iv) Manly Bicycle Committee – 8 May 2008

3. The following Minutes contain recommendations of a substantial nature requiring formal Council adoption as follows:

i) Local Companion Animal Management Committee – 26 March 2008

a) Item 7 Cat Care Community Talk

Recommendation

That Council staff coordinate the conduct of a free community talk on “modification of cat management to inside living” as an important sustainability/biodiversity initiative.

b) Item 9 General Business

Recommendation

That Council staff draft a letter to the Minister for Transport relating to the issue of affording persons with companion animals more leniency in relation to travel on various modes of public transport.

ii) Manly Bicycle Committee – 10 April 2008

a) Item 7 Bicycle Committee and Manly Council to Request Report on the RTA Bike Plan 2010.

Recommendation

That Council write to the RTA and the Minister supporting the Committee's representation, and in particular, a resolution of the Spit Bridge area to encourage and enhance bicycle use.

b) Item 9.2 Bike Racks in The Corso Stage 2

Recommendation

That in view of the removal of all bike parking racks in The Corso Stage 2, Council should:

- Install additional racks to accommodate at least 50 bikes to meet growing demand; and
- Regularly audit use of bikes and bike parking and around the Corso and install additional racks to meet capacity.

iii) Manly Community Environment Committee – 15 May 2008

a) Item 4a \$150,000 Climate Change Project.

Recommendation

The Committee:

- i. Thanks staff for their presentation of revised bids to achieve the savings of \$150,000 to fund an iconic Climate Change Project.
- ii. Endorses the staff recommendations that comprise the \$150,000.

b) Item 4b Environmental Levy Budget

Recommendation

The Committee:

- i. Endorses the amended Environmental Levy Budget for 2008/09.
- ii. Recommends the establishment of a small staff/Environment Committee Working Group to review future directions for expenditure of the Environmental Levy.

iv) Manly Coastline Management Committee – 20 May 2008

a) Item 5.1 Pine Street Stormwater Outlet Works Proposal

Recommendation

The committee notes the advice of the new proposed storm water outlet design at Manly Ocean Beach / Pine Street given by Cardno (NSW) Pty Ltd.

- i. As per Cardno's independent assessment of the proposed stormwater outlet design at Manly Ocean Beach / Pine Street that further modelling and detail design investigations be carried out,
- ii. That clarification be sought on the anticipated network performance under extreme conditions.

General Manager's Note:

Cardno's comments on further modeling relates to the work that should be carried out during the performance testing of the system following installation. The reference to detailed design relates to finalising construction drawings and not further analysis work, as all analysis was already completed and submitted for the Cardno review.

In regard to the committee's request for comments on how the system might perform in a large rainfall event, it is important to note that we are working with an existing "outfall" of a

catchment that was designed and piped for normal rainfall event conditions, therefore irrespective of the intensity of an event, the maximum hydraulic capacity of the exiting outfall will remain constant. Also, while there is an existing inline detention system built under Pine Street to manage larger runoffs from the Pine Street Catchment, extreme events that occur in the Manly LGA and for that matter, most of Sydney, are managed by overland flow and not pipe flow.

v) **Manly Traffic Committee – 26 May 2008**

a) **Item 34/08 Fairlight Shops Urban Improvement**

Recommendation

1. That Council receive and note the report.
2. That Roads and Traffic Authority and Sydney Buses review the proposed bus option and provide comments and a report be brought back to Manly Traffic Committee at the June meeting for consideration by Council.
3. That comments also be sought from the Fire Brigade Services located at the corner of Thornton Street and Sydney Road regarding the proposal.

Planning And Strategy Division Report No. 18

NSW Planning Reforms: Release of draft Development Codes

SUMMARY

This report aims to inform the Council regarding the latest NSW Planning Reforms, including the release of draft Development Codes providing for State-wide exempt and complying development.

MOTION (Lambert / Cant)

That Council:

1. Submit a response to the exhibition of the draft Development Codes which highlights that the proposed introduction of this new suite of minimum controls for development across the State is considered to undercut existing local controls and erode Council's ability to minimise adverse environmental effects and impacts on its ability to maintain sustainable development, consistent with the principles of ESD within Manly's neighbourhoods, and communities across New South Wales.
2. Send copies of its response to the Minister for Environment and Climate Change, the Premier, the Local Member for Manly and the Local Government Authority
3. Express its strong objections to the denial of the community's rights in terms of submissions and objections to DAs.
